

News about Year 6

19.10.2020

Dear Parents / Carers,

We are making some changes to our year 6 classes that we would like to share with you.

Due to the missed learning experiences through lock down and the fact that Year 6 is such an important year for our children, we have made the decision to split the year group into three smaller classes.

We feel that in doing this the children will benefit from more focused teaching and learning time and further gain support as individual learners academically, socially and emotionally. We are using some of the Government catch up funding for this. The teacher in the third classroom will be our Deputy Headteacher, Leanne Towers. She is already in the Year 6 hub and the children know her well.

We have started the process by asking the children to complete an activity around which friends they would most like to be with in class as we want to be sure every child is happy.

We hope that you appreciate our aims and the commitment we have towards supporting our Year 6 cohort. It is a great opportunity for the children to learn and develop in a more focused, calmer environment.

If you have any questions please do not hesitate to get in touch with us.

Kind regards

Clare Cosgrove and the Year 6 team.
